the European Soccer Championship  
to take place in 2024 in Germany*

**märklin**  
**TRIX**

**Class 185.2 electric locomotive in a fictitious version on  
the occasion of the European Soccer Championship to  
take place in 2024 in Germany.**

### 88488 Class 185.2 Electric Locomotive

**Model:** The locomotive has a motor with a bell-shaped armature and all axles are powered. There are LED warm white headlights and red marker lights. The wheel treads are dark nickel plated. The pantographs can pick up current from catenary. The model has an extensive paint scheme. Length over the buffers 87 mm / 3-7/16".

**Highlights:**

- Motor with a bell-shaped armature.
- All axles powered.
- LED warm white headlights that change over with red marker lights.

€ 249,- \*

Motor with a bell-shaped armature and all axles powered.

Pantographs are plated in high-quality 24-carat gold.

LED warm white headlights that change over with red marker lights.

### 36649/25368 Class 185.2 Electric Locomotive

**Model:** The locomotive has an mfx digital decoder and extensive sound functions. It also has a special motor, centrally mounted. 4 axles powered through cardan shafts. Traction tires. The triple headlights and dual red marker lights change over with the direction of travel, will work in conventional operation, and can be controlled digitally. The headlights at Locomotive End 2 and 1 can be turned off separately in digital operation. Grab irons are separately applied on the ends of the locomotive. The locomotive has two 24-carat gold-plated pantographs that can be raised and lowered (they are not wired to take power from catenary). Length over the buffers 21.7 cm / 8-1/2".

These models will be launched as a one-off series in 2024 and the Märklin HO model is limited to 2,024 pieces worldwide.

€ 299,- \*

Locomotive body constructed of metal.
